

THE UNITED DIVE CLUB

PRESENTS:

The Galapagos

Aboard Explorer Ventures

Tiburón Explorer

Live-a-Board Dive Boat

May 9-16, 2026

Update 021125

Thanks to all of you for submitting your first payment on time! The more I talk to various people that we are going to the Galapagos diving, the more I hear how great it's going to be. A UNESCO World Heritage site, Galapagos National Park is a paradise of protected islands bursting with unique marine life found nowhere else on earth. Diving adventures here encompass everything from aggregating hammerheads and whale sharks, to penguins, marine iguanas, and more.

Today, let's talk about what Darwin saw on land...

The Galapagos Islands are an outstanding place to visit for wildlife photography. We will have a chance to go ashore and see local endemic life, like the blue-footed booby, giant tortoise, and more.

LAND TOUR HIGHLIGHTS

- North Seymour Island walking tour
- Santa Cruz Highlands tour to see giant tortoises
- Large colonies of blue-footed boobies and frigate birds
- Sea lions and marine iguanas
- Free time to explore beach town Puerto Ayora
